Online quiz (Q2)

Course Code: SWE212   **Course Title: Software Project Management**

Total Marks: 15

Please answer all following Questions

Project Case:
Think about a Multimedia Project where the outcome would be a 10 minutes 3D animation for awareness building on smoking. As the Project Manager, you may have to engage team members including Analyst, Designer and 3D Animator along with others.

Question 1.   **Marks**
Identify/invent 8 relevant tasks/activities associated to this Project Case. Allocate duration and predecessor to all activities with at least one parallel activity and complete a list of tasks.   **3+2=5**

Question 2
Develop a network diagram (PND) for the final list (for 8 tasks) of question 1.   **5**

Question 3
Allocate resources with costs for the above tasks and prepare a budget for the given project.
                                                                                                    5
